Complaint

The U.S. military and their hired individuals are still contaminating our food and drink. They did the same to the clothes we wear and the air we breathe. They are doing this everywhere and anytime. In fact now they are using their technology and their advanced weaponry in causing harm to us. Lately they are using Laser Tazer ray weapons in causing interior damage to our bodies. Furthermore, they, the U.S. military and their hired individuals seek to contaminate my medication by going to the pharmacy like C.V.S. and ask them to sell me contaminated medicine.
